Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 November 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 21-25 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: they include a number of hardware components that are not required by claims 1-20, such as a plurality of microengines, a control store, *separate* logic for (a) controller logic, (b) context event switching logic and (c) arithmetic logic (in an ALU), an execution box data path, a general purpose register set, etc.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-25 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Drawings

2. The informal drawings filed in this application are acceptable for examination purposes. When the application is allowed, applicant will be required to submit new formal drawings.

Specification

3. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1, 4-8 and 11-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The claims recite "in a single cycle, concatenating ..., shifting..., and storing," or similar language" (note the claims and page 1 of applicant's remarks submitted with the amendment of September 17, 2003). However, the specification does not support such a feature of the claims. For example, the "concatenating ..., shifting..., and storing" is described on page 10, lines 15 et seq. of the specification, but there is no mention of these occurring in a single cycle.

In fact, the only mention of "a single cycle" occurs on page 8, lines 14-22, of the specification. However, only the step of "a single cycle shift of one operand or two operands" is disclosed as occurring in a single cycle. The steps of "concatenating" and

Art Unit: 2186

"storing" are not mentioned in this section. There is no disclosure that the steps of "concatenating" and "storing" occur in a single cycle, much less that all three steps occur in the same single cycle.

6. Claims 1, 4-8 and 11-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 1 and 8 recite "storing the shifted 64-bit intermediate result in third 32-bit word", however the specification does not support this limitation, nor does it explain how it is possible to fit 64 bits of data into a 32 bit space.

Response to Amendment

7. With regard to the remarks submitted with the amendment filed November 20, 2003, these cite page 8, lines 14-16. However, as stated in the rejection, this section only teaches a single cycle shift of one operand or two operands in a single cycle. This does *not* teach "concatenating" or "storing".

Conclusion

8. Applicant's amendment necessitated the additional rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Peikari whose telephone number is (703) 305-3824. The examiner is generally available between 11:00 am and 9:30 pm, EST, Monday through Thursday.
